**1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).**

In the 2024–2025 school year, our school utilized Prop 28 funds to establish a dedicated music program that enriched our students' access to the arts while intentionally integrating social-emotional learning (SEL) competencies. This newly developed program offered students opportunities to explore songwriting as a form of personal expression, creativity, and emotional development. Through guided instruction, students composed original pieces that reflected their understanding of core SEL themes such as self-awareness, empathy, and responsible decision-making. In addition to songwriting, the program provided structured instrument instruction, allowing students to build foundational skills in music theory, rhythm, and performance. This dual focus on creativity and technical skill supported a well-rounded arts education experience that complemented academic learning and helped foster student confidence, collaboration, and voice. The program culminated in a vibrant spring concert that showcased the students' work to all educational partners, including families, staff, and community members. This event served not only as a celebration of student achievement but also as a demonstration of the program's impact on student engagement and holistic development. Thanks to Prop 28 funding, our school was able to create an inclusive and meaningful music program that strengthened our arts integration efforts and provided students with lasting skills that support both artistic and personal growth.
